

INARCO® Complete – spray gel

THE all-round solution for fast, safe, environmentally friendly removal of paints/varnishes/glues/oils/greases

Indispensable product for all work with paints/lacquers/glues/oils/greases - whether in industrial application or as a user on site - the product fulfills all wishes to enable clean working on site!

2 spray variants:

a) Application as a jet (e.g. in corners and crevices).

b) Application as a spray (e.g. for large-area application in thin layers)

content: 500ml; range: up to 5m²

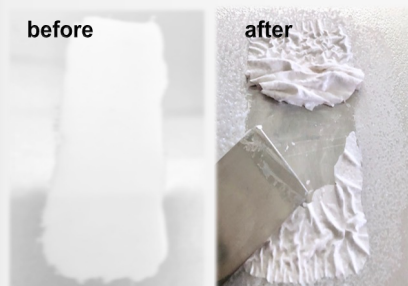

for larger applications or for refilling:
also available in 10l canister

Properties:

- **clean handling:** neither brush nor roller is required for application; simply spray on and let it take effect; no unnecessary product consumption due to residues in brush or roller
- **economical use:** due to the fine spray nozzle, the gel can be sprayed on thinly; only what is needed is used, which both enables economical use and protects the environment; for thick layers, spraying is repeated (thicker gel layer)
- **pH-neutral and free of acids or alkalis;** no skin irritation; also suitable for sensitive materials such as aluminum
- **free of hazardous substances** such as CHC, NMP, aromatics, DMC, non-flammable and can also be used safely in closed rooms
- **low odor:** no toxic fumes are generated; allows pleasant processing without headaches
- **non-hazardous:** can be transported without special regulations
- **label-free:** no special safety measures necessary; careful handling is recommended
- **can be used in many ways:** on glass, metal, wood, stone (conditionally on plastics); **IMPORTANT:** always test for compatibility on an inconspicuous area beforehand
- suitable for **removing paints and varnishes of all kinds** (except stoving varnishes, conditionally 2K varnishes) as well as **adhesives** (conditionally 2K adhesives) and all kinds of greases/oils

Anwendungsbeispiele:

Alkyd resin varnish

Window frame with glue residues and fly droppings

Exterior switch yellowed and with fly droppings
