

SUSTAINABILITY with the products of INARCO® - Chemistry

INARCO® - Chemie has made it its business to replace hazardous solvents and highly alkaline products with products that are both ecological and economical.

With the INARCO® - products, varnishes, paints, adhesives can be removed from the surface to be cleaned and, due to the settling behavior, can be disposed of easily and in an environmentally friendly way, without any additional equipment or auxiliary means

... that is sustainable!

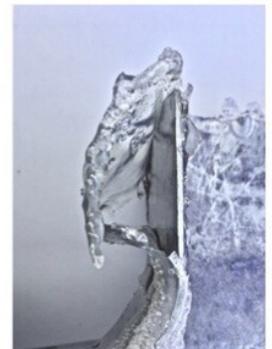

INARCO® - products are ...

- suitable for removing varnishes, paints, adhesives,
 - also 2-component systems
- VOC-free, the latest generation completely VOC-free
- pH-value in the neutral range (6-8), do not contain acids or alkalis
- no hazardous material
- low odor
- not hazardous to the environment
- highly efficient: economical in consumption
- lowest disposal costs
- foam-free: can be used manually and mechanically

INARCO® - products are powerful - and unlike solvents or highly alkaline products

Cured 2K coatings/inks/adhesives can be peeled off after only 10min for thin layers. In contrast to solvents or highly alkaline products, the layers are detached from the surface and not dissolved.

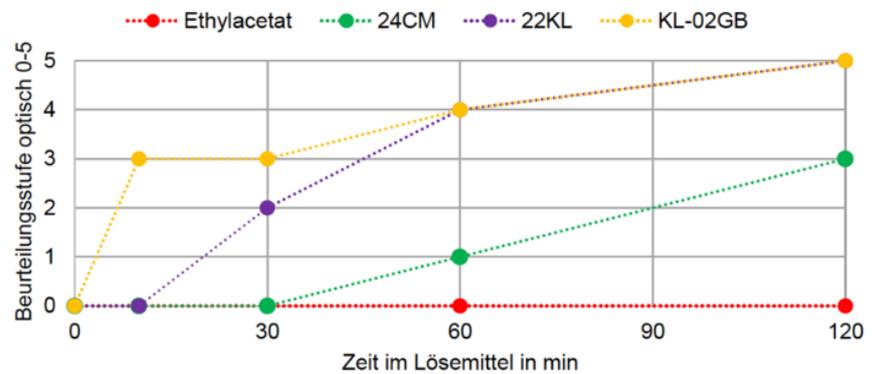

Entfernung von 2-Komponenten-Lacken unterschiedlicher Schichtdicke durch Ablösen von der Oberfläche mit den INARCO® Produkten – einfach und effizient!

INARCO® KL-02GB was developed in collaboration with the University of Applied Sciences Rapperswil/UMTEC and the Hightech Zentrum Aargau.

The latest generation of INARCO® - products is completely VOC and label-free

Extract from a test report on the removal of cured 2-component coatings:

verschmutzte Reinigungslösung

Reinigungslösung nach dem Absetzen

Entsorgung (Farbe, Lack, Kleber)

INARCO® - products ensure the lowest possible environmental impact

reusability of INARCO® - products and lowest disposal quantities - for less environmental impact

INARCO® - Chemistry stands up for sustainability!

We look forward to hearing from you and will be happy to answer any further questions:
